Others Present:

Members of the Public

Call to Order:

The meeting of the New Marlborough Cable Advisory Committee was convened at 11:02 am via teleconference due to the Covid-19 virus outbreak.

Update of System Installation Progress:

- **Chairman Klein** shared on screen an updated progress map highlighting areas of town that are complete or in progress. The map is available on the Town website.
- There is no way to accurately predict the percentage of the town that has been completely wired but it would appear by eye that the southwest corner of town appears to have the most miles of road that need to be completed.
- A comparison of this map with the previous map indicates there has been significant progress in the build-out.
- Work continues unless the roads are impassable and appear to be on schedule for town-wide completion in the early spring. At that time, town residents will be contacted directly by Spectrum sales. Steve reiterated that the Town will be divided into 5 sections and residents will be contacted in person, section by section, for sign up.
- Street sheet postings have lagged a bit but are now up to date on the town website.
- Michael Shocket asked about bringing the Spectrum Sales Supervisor to our meeting. Steve said he would try to set that up for the next meeting.

Fiber Connect

Steve Klein mentioned the Fiber Connect offer being circulated around town and clarified that this is outside of the town sponsored installation and not within the purview of the Cable Advisory Committee. It is internet and VOIP phone only and available only in specific areas. Persons interested should contact Fiber Connect directly.

Review of Minutes:

The Minutes of the December 15, 2020 meeting were approved unanimously and without discussion by a roll call vote of members present.
