The commission completed a site visit with Mr. Levasseur and property owners. Mr. Levasseur mentioned that the pond is full of sediment and needs to be cleaned/dredge. The commission reviewed the comments from DEP with Mr. Levasseur which include any removal of the flash boards, or replacing them, should be included in the NOI as part of the project work for the life of the order of conditions. And that a dry hydrant is recommended. After reviewing the comments Mr. Levasseur requests to continue this hearing until the next meeting in which he'll draft a modification to the NOI.
