Elizabeth Rosenberg
Chair, New Marlborough Affordable Housing Committee

Dear Elizabeth and Members of the committee.

Attached please find Construct's feasibility study to acquire and recreate Cassillis Farm as workforce and affordable housing. This ambitious project will make a significant difference to south Berkshire households and New Marlborough employers providing a range of affordable housing of which we can all be proud.

The project will require significant investment by many parties -Construct, individual, corporate and governmental investors. The most important of which are the local New Marlborough leaders on your committee.

We look forward to meeting with you to discuss moving forward.

Sincerely,

Jane Ralph
