

Subject: New Marlborough Farmers Market - Guidelines

Customers must wear a mask at all times and practice social distancing while in the market area. Family groups must stay together and there should be no eating while in the market area. Customers are encouraged to bring their own reusable bags, however vendors will not handle reusable bags. Vendors may use single use bags to bag for customers or will place items on a table for customers to bag themselves.

Vendor tables will be widely spaced so as to enable appropriate social distancing.

We'll have a sanitizing station in the middle of the market area. Vendors are encouraged to have sanitizer available for customers to use.

Vendors need to wear a mask and disposable gloves when working with customers, clean/sanitize their displays/tables at the end of each market, clean/sanitize frequently touched surfaces as necessary, remind customers to social distance, and cannot resell any item that cannot be sanitized. No offering samples or tasting of food items. No tablecloths allowed this year.

No dogs are allowed at the market (with the exception of service dogs).

We'll be monitoring the size of the market area and the # of customers present in order to maintain appropriate social distancing and customer flow.
