

Good News, New Marlborough will be hosting a flu and COVID-19 clinic

Confirmed: New Marlborough Flu Vaccine Clinic on Tues. Sept. 27, 10 am-12 pm at the Fire House, 205 Norfolk Rd. Both high-dose (for 65+) and regular-doseG flu vaccine will be available. The Pfizer Omicron-specific COVID-19 vaccine booster will also likely be available, pending CDC approval and state vaccine distribution. Both shots can be given on the same day.

Walk-ups will also be welcome as time and supplies allow. Everyone should bring their health insurance card, COVID-19 vaccine card, and a mask to the clinic.

In addition, a limited number of in-home vaccinations will be provided on Tues. Sept. 27, 1-3 pm for New Marlborough residents who are unable to access either flu clinic site. Inquiries about the homebound vaccine program can be made by contacting Jayne Smith at (413) 717-8922 or jayne@tritownhealth.org.
