

## **Waste Reduction & Why it Matters: Monday, Nov. 16, 2020 (2 – 3:15 pm)**

This presentation presents the magnitude of our trash problem (both locally and globally) and what's being done, what's needed, and how you can become part of the solution. Diminishing trash disposal capacity in Mass is just one compelling reason why we need to rethink our trash habits. Do you know that...

ALL landfills in Mass will be closed by 2030 & the seven municipal waste combustors in the state are operating at or near capacity now?

MORE than 50% of what we are currently throwing away can be reduced, reused, recycled or composted?

OUR consumption habits contribute to climate change?

Watch and participate in this informative presentation to learn how the Commonwealth is working to reduce the amount of trash we send to landfill and incineration. ## **Talking Trash & Recycling: Wednesday, Nov. 18, 2020 (7 – 8:15 pm)**

Confused about what should go in the trash and what should go in your recycling bin? Find out what happens to your trash and recyclables here in Massachusetts. Learn how to reduce the amount of trash you generate, improve recycling habits, make easy changes to lead a more sustainable lifestyle, & help the Commonwealth achieve its solid waste reduction goals.
